

SERBIAN INSTITUTE  
FOR  
PUBLIC DIPLOMACY

**-PRESS RELEASE-**

**New group of stagiars started their Internship at Serbian Institute**

Ministry of Diaspora of the Republic of Serbia and Serbian Institute for Public Diplomacy after succesful ending of spring-summer programme of Young professionals are pleased to announce that a new group of stagiers joined our team.

The new group of stagiars who will be part of our team in period september-december is consisted of: Olja Radlovic joining us from Republic of Srpska, Luca Marini from Italy, Stefan Vojvodic from France, Dragan Lukjanovic and Milos Milosevic coming from Germany.

**Dragan L.:** *«The biggest impression for me was and is the fact to be encircled by diplomats and famous personalities all the days, e.g. Ana Milosevic. To be so near to Barroso in the EP was a great experience. I am not in center of European power yet, but a little bit closer.»*

**Olja R. :** *«Working for the Serbian Institute gives me an opportunity to contribute to the promotion of Serbia and to put in practice the existing knowledge about the European Union. Being able to actually participate in conferences organized by EU institutions and not just read about them is a rewarding experience.»*

SERBIAN INSTITUTE  
FOR  
PUBLIC DIPLOMACY

*Miloš M.:» I have chosen the internship at the Serbian Institute for Public Diplomacy for two reasons: After finishing my studies about the European decision making process, I want to get a practical insight into it. Secondly, one of my main interests is to promote Serbia's European Union integration. I fully believe that this internship will provide me with the chance to achieve these goals.»*

*Luca M.:» Belgrade and Brussels, two B-cities I would like to live in, sooner or later in my life. Here at the Serbian Institute I expect to have the opportunity to breathe a bit of the atmosphere and multicultural environment and history of both. "The heart and the stomach of Europe", and me trying to cope with the contractions of these two powerful and essential muscles of the European current and future architecture.»*
